Grade 1 Red
Vidyatree Modern World College
Lucknow

Dear Teacher,

I feel happy to share my experience with the school as reflected from my daughter Deetya's (Grade I Red) progress. When I was searching for a school, I was looking for a place with a nurturing environment to foster a love of school, which could provide individual attention to each kid and make them feel special and loved. I am very happy that my wishes have come true with this school. That is exactly what I found at VMWC. I would say admitting into this school was a great idea. All of the teachers we have had have gone above and beyond to help each child learn and grow. They are what make them stand out. Each and every day they ensure the children are happy, engaged, and learning. They are personally invested in each child and nurture not only their minds but their spirits. The teachers and the staff are wonderfully warm and responsive to the children as well as the parents. The staff really provides an ideal setting for the introduction to formal education. They are very patient, kind and loving. There is a great balance of learning and fun. The classrooms are bright, extremely well-organized and impeccably clean.

The moment our daughter entered the first grade we were able to see the benefits of sending our child to VMWC. Not only was she achieving at a higher level, she was confident with herself and her abilities. The curriculum that this school follows is absolutely amazing. She has been developing exceptional skills in UOI, early Maths and reading preparation. The instruction she receives and the teachers dedication to inspiring kids to learn far surpasses any expectations that we had.

I'm really pleased with how well my daughter has progressed in almost 1 year. She has had support when she needed it and I have noticed a massive improvement

with her reading and maths. Any concerns or questions are answered quickly by her teachers and my daughter really enjoys coming to school every day. The dance, games, yoga & P.T programs are a favorite part of the school week for her.

I can say that my daughter has become confident and independent in learning, that makes us proud of her. My child enjoys participating in lessons because here, learning is challenging and fun. Strategies used to teach my child, to read, have been very useful at home. VMWC has improved my child's confidence and sporting ability. Gives great opportunity for children to explore interests and try new things She is excited to come home each day and share all she has learned and accomplished!

We are absolutely thrilled to have found an environment that is allowing our daughter to flourish and preparing her for her future education, while at that same time providing her an opportunity to have fun with the friends she has made. We look forward to watching her continued development as she continues her primary school years at this school. Our daughter has made leaps and bounds academically, and socially. She is safe, appreciated by her teachers and peers, and feels that all the kids are same.

Thanks for the efforts you and the school are taking for my daughter.

Regards,
Minakshi Sharma
(Deetya's Mother)
